

HUCOP Clinic Pharmacy Rounds:

Novel oral therapies for the management of thrombocytopenia of chronic liver disease

Date: 6/11/2019

Time: Noon – 1 PM

Howard University College of Pharmacy

*Office of Continuing Professional
Education*

Annex III- Room 117
Washington, DC 20059

Who should attend: The program is designed for inpatient and outpatient pharmacists caring for patients with thrombocytopenia of chronic liver disease.

Needs Statement: To enhance pharmacists competence in providing services such as patient selection screening and perioperative adverse effect monitoring and reporting.

Statement of Goal: To enhance knowledge and appropriate use of the new pharmacotherapy agents used in the preoperative management of thrombocytopenia of chronic liver disease in patients who are scheduled to undergo an elective procedure

Activity Type: Knowledge

Objectives: After completing the program, participants should be able to:

1. Explain the background information as pertains to thrombocytopenia of chronic liver disease
2. Describe the standard of care for the preoperative management of patients with thrombocytopenia of chronic liver disease.
3. Outline supporting evidence for the FDA's recently approved novel therapies for management of chronic liver disease patients with thrombocytopenia who are undergoing elective invasive surgical procedures.
4. List the perioperative role of pharmacists in the care of patients with thrombocytopenia of chronic liver disease.
