

HUCOP Clinical Pharmacy Rounds: Cancer Immunotherapy and Management: A Pharmacist's Role

Date: 06/13/2019

Time: 12:00 – 1:00 PM

Howard University College of Pharmacy - Office of Continuing Professional Education
2300 4th Street NW – Annex III-**Conference Rm 214**
Washington, DC 20059

Who should attend: The program is designed for all pharmacists and other clinicians who may have interactions with cancer patients who are on immunotherapy.

Statement of Goal: To enhance the audience's knowledge on the guideline-recommended treatment pathways for immunotherapy-related adverse events.

Activity Type: Knowledge-based

Objectives: After completing the program, participants should be able to:

1. **Identify** currently approved immunotherapy agents and their clinical indications
2. **Describe** the underlying physiology and mechanism of action of immunotherapy and its role in treating various malignancies
3. **Recognize** immune-related adverse effects associated with immunotherapy
4. Using NCCN guidelines, **Outline** treatment plans for the management of immunotherapy-related adverse events
5. **Explain** the relevance of the NCCN guidelines in various clinical settings
