

DUAL ANTIRETROVIRAL (ARV) THERAPY

Date: 9/26/2023

Time: 12:00 – 1:00 PM

Continuing Pharmacy Education Program
Clinical Pharmacy Associates, Inc. &
DC Department of Health
HIV/AIDS, Hepatitis, STD,
TD Administration

Who should attend: The program is designed for pharmacists in the DC HIV/AIDS Pharmacy Network and pharmacists in client organizations of CPA/MedNovations. Other HIV providers, e.g. physicians, nurse practitioners and physician assistants are also appropriate participants for this program.

Needs Statement: The implications of this infectious disease for persons living with HIV, their providers and the health care system are acute and profound, requiring new knowledge, understanding and practices for the pharmacy professionals, physicians, and other health care providers.

Statement of Goal: To equip the practicing pharmacist with current knowledge and understanding of topics related to Dual Antiretroviral (ARV) Therapy.

Activity Type: Knowledge

Objectives: After completing the program, participants should be able to:

1. Explain the evolution of ARV therapy for treatment of HIV-1
2. Highlight key components of clinical practice guidelines related to dual ARV therapy
3. Describe case examples of appropriate options for dual ARV therapy
4. List potential benefits and limitations of dual ARV therapy
