

HIV INFECTIONS: MEDICATION MANAGEMENT UPDATES

*Continuing Pharmaceutical Education Program
At HSC Pediatric Center
1731 Bunker Hill Road, NE, Washington, DC 20017*

Tuesday, October 13, 2015 ----- 5:00 pm - 9:00 pm

Who should attend: The program is designed for pharmacists and other professional staff from governmental health agencies and provider community, supporting HIV infected persons, HAHSTA and the AIDS Drug Assistance Program (ADAP) of the department of Health.

Needs Statement: Optimal medication management of clients/patients with HIV/AIDS requires clinicians and agencies to receive updates on the scientific and clinical basis of pharmacotherapy and improvements in healthcare delivery.

Statement of Goal: To enhance knowledge and medication management practices in the prevention and treatment of HIV/AIDS and related comorbidities.

Activity Type: Knowledge

Objectives: After completing the program, participants should be able to:

1. Define commonly used medication adherence terminology.
2. Define the importance of medication adherence as it relates to the patient living with HIV (PLWH).
3. Analyze methods for measuring medication adherence.
4. Evaluate factors that contribute to medication adherence.
5. Apply knowledge to clinical cases.
6. Provide an overview of the DC ADAP MTM Pilot program
7. Describe the requirements of a Comprehensive Medication Review (CMR, i.e. CPA MTM program Service Description
8. Define Key Components of the MTM (Mirixa) platform
9. Review/select DC-ADAP Client cases processed by CPAMedNovations Call Center
10. Highlight Recent FDA Safety-Related Drug Labeling Changes for HIV/AIDS Related Therapies
