

HIV Care in the Era of Telehealth

Date: 12/11/2018 **Time:** 5:00 – 8:00 PM

Continuing Pharmacy Education Program Clinical Pharmacy Associates, Inc.

at HSC Pediatric Center 1731 Bunker Hill Rd., NE, Washington, DC

Who should attend: The program is designed for pharmacists.

Needs Statement: Optimal medication management of clients/patients with HIV/AIDS requires pharmacists and other healthcare providers to receive updates on innovation in healthcare delivery.

<u>Statement of Goal</u>: To equip the practicing pharmacist with current knowledge and understanding of key aspects of telehealth as it relates to advancing HIV prevention and treatment adherence for clients and the general population.

Activity Type: Knowledge

Objectives: After completing the program, participants should be able to:

- 1. Identify at least two opportunities to adopt telehealth strategies in treatment engagement or adherence for PLWH in practice that supports the DC 90/90/90/50 Plan.
- 2. Describe at least three professional considerations that are fundamental to the adoption and deployment of telehealth by health professionals and healthcare organizations.
- 3. List three technological innovations that support telehealth for HIV care that clients are likely to embrace based on published evidence.
