

Medication Reconciliation – Principles and Practice

Date: 3/31/2020

Time: 12:00 – 1:30 PM

Continuing Pharmacy Education Program
Clinical Pharmacy Associates, Inc. &
DC Department of Health
HIV/AIDS, Hepatitis, STD,
TD Administration

Who should attend: The program is designed for pharmacists in the DC HIV/AIDS Pharmacy Network and pharmacists in client organizations of CPA/MedNovations.

Needs Statement: Medication reconciliation remains a best practice in medication management and medication error prevention. Consequently, this practice should be well understood and skillfully supported by the pharmacy professional in the delivery of high quality pharmaceutical services to patients including HIV positive clients.

Statement of Goal: To equip the practicing pharmacist with current knowledge and skills for optimal medication reconciliation in the care of patients including persons infected with HIV within the healthcare system.

Activity Type: Knowledge

Objectives: After completing the program, participants should be able to:

1. Define and discuss the importance of medication reconciliation in the management of medications for patients or clients
2. Identify at least 3 leading and 3 supporting health care providers active in the provision of medication reconciliation
3. Identify at least 3 major challenges or opportunities for improvement to the provision of medication reconciliation within health care settings
4. Describe what role innovations in technology and practice have made to advancing medication reconciliation services
5. Using QA strategies identify common errors and adverse events associated with suboptimal medication reconciliation
