

Trauma, HIV and Adherence

Date: 5/26/2020

Time: 12:00 – 1:00 PM

Continuing Pharmacy Education Program
Clinical Pharmacy Associates, Inc. &
DC Department of Health
HIV/AIDS, Hepatitis, STD,
TD Administration

Who should attend: The program is designed for pharmacists in the DC HIV/AIDS Pharmacy Network and pharmacists in client organizations of CPA/MedNovations.

Needs Statement: Trauma in PLWHA is an important factor in understanding and addressing their care and optimizing treatment adherence. Pharmacists can promote treatment adherence and advance pharmaceutical care with empathy and skill when trauma-related factors are considered.

Statement of Goal: To equip the practicing pharmacist with current knowledge and skills regarding the role of trauma and its management for optimizing treatment adherence in persons infected with HIV.

Activity Type: Knowledge

Objectives: After completing the program, participants should be able to:

1. Understand how Trauma affects Adherence
2. Recognize issues that present in individuals that are living with HIV and Trauma.
3. Outline knowledge of NASTAD's Six Principles of Trauma-Informed Approaches
4. Summarize knowledge of Childhood Adverse Experiences
