

Solid Organ Transplant and HIV Infection

Date: 6/25/2019

Time: 12:00 – 1:00 PM

Continuing Pharmacy Education Program
Clinical Pharmacy Associates, Inc.

316 Talbott Avenue,
Laurel, MD 20707

Who should attend: The program is designed for pharmacists.

Needs Statement: Optimal medication management of populations with low literacy requires pharmacists and other healthcare providers to receive updates in healthcare delivery.

Statement of Goal: To equip the practicing pharmacist with current knowledge and understanding of topics integral to the care and safety of populations with HIV. To describe the best practice for transplant among patients with HIV.

Activity Type: Knowledge

Objectives: After completing the program, participants should be able to:

- Recognize variables that exclude patients with HIV infection from receiving transplantation.
- Discuss the latest outcomes of solid organ transplantation in the era of highly active antiretroviral therapy.
- Describe the medical management of patients with HIV infection following transplantation.
- Identify strategies to modify antiretroviral therapy to minimize interactions with transplant immunosuppression.

Faculty

Marie Massing, Pharm.D., RPh
Pharmacy Practice Post-Doctoral
Fellow,
Clinical Pharmacy Associates, Inc.
