Saturday, April 20, 2024 from 7:00AM – 1:00PM (Breakfast & Registration 7am-8am EST)

Location:

Kellog Conference Center, Gallaudet University
800 Florida Ave NE, Washington, DC 20002

Target Audience: Medical directors, physicians, physician assistants, nurse practitioners, nurses, pharmacists, other allied health professionals and practice leaders that serve high-risk populations.

ACPE Pharmacist CE Credit Available: 12 contact hours (1.2 CEUs)

Program Type: In-person and Live Webinar

Activity Type: Knowledge

Fee: There is no fee to attend this activity.

Needs statement: There is an ongoing need to update primary care and specialty practices on the evolving strategies for implementing evidence-based medicine to address the gaps in care of local, regional, and global Caribbean communities.

Statement of goal: With an intent to inform the attendees on innovations in treating special patient populations, speakers will outline evidence-based prevention, chronic-disease management, pharmacotherapy, and cutting-edge treatment options that participants will be able to integrate into their practice to improve patient care outcomes for patients, with a specific focus on Caribbean communities.

Conference Objectives

At the conclusion of this conference, participants **should** be able to:

- Provide examples of new models of healthcare delivery system reform and how they can be employed.
- Explain current solutions to address healthcare fragmentation and health outcomes.
- Identify best practices that address health equity in the communities that they serve.
- Interpret the use of data to define standards of care.
- Outline pragmatic tools and innovations that can be used in practice to address the needs of patient populations.
- Describe health disparities of Caribbean populations both locally and abroad.
